

PRINCIPAL'S MESSAGE

Dear Parents,

Welcome to Edenhope College, where talents are developed, personal achievement and excellence are encouraged and celebrated, respect between students and staff is mutual, and where the community shares a sense of pride in its school. At Edenhope College, we value every individual and celebrate all students being happy and achieving their personal bests.

In a rapidly changing world, Edenhope College is ideally placed to provide a superior and comprehensive education to its community, making it a first choice place of learning. We are an innovative learning community, with interactive whiteboards in all classrooms, multi-point video conferencing facilities, a high ratio of computers per student, including notebook computers, 4Mbps fibre optic broadband connection to facilitate improved administrative and curriculum service delivery, and highly trained and dedicated staff.

At Edenhope College, we have a community atmosphere and offer a comprehensive education from Year Prep to Year 12, with smooth transitions, and easy interactions between different age groups. Class sizes are small so that the curriculum can be delivered to suit individual needs and learning styles – students gain more individual attention.

Edenhope College has magnificent new buildings with bright and spacious classrooms, specialist facilities, and quality resources. We have extensive grounds and play areas, and new play equipment. Our College buses for excursions and camps provide cost savings to parents.

Edenhope College has experienced early years literacy and numeracy teachers who deliver a program that builds strong academic foundations. Students graduate to a broad range of electives in Years 9 and 10. They can then choose from multiple pathways into the senior years – both ‘academic’ and ‘hands-on’. They are able to undertake all pre-requisites for university entrance. Senior students consistently achieve excellent outcomes and move into employment, apprenticeship, and tertiary study fields. Young people are able to keep all their options open when they complete their education at Edenhope College.

An Edenhope College, education involves an active partnership between home and school, with our staff working closely with you in order to achieve the best possible learning outcomes for your child. Our school puts the interests of students first at all times. Students are encouraged to participate in outdoor education, community service and student leadership programs, with diverse sporting and cultural opportunities being available.

Our Family Handbook provides you with useful information about the way our school operates, our educational programs, and the experiences that our students have. I warmly invite you all to take up some of the opportunities for parent involvement in school activities. Showing an active interest in your child’s schoolwork at

home is also highly beneficial, including having a daily reading time with your child.

If you wish to discuss any aspect of College life, please feel free to contact me. I will listen and constantly strive to ensure your child receives the best education that can be offered.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Lynden Fielding'.
